Dear Prof Emad Barsoum,

Dear Prof El-Nahas,

Dear Prof Arafat,

Dear Prof Yassin,

Many thanks for your proposition to Gustave Roussy to endorse the Scientific program of the 2025 ISCO Annual Congress.

On behalf of Gustave Roussy and as Head of the International Academic Affairs, I am happy to confirm that Gustave Roussy will endorse the Scientific program of the 2025 ISCO Annual Congress.

Gustave Roussy will also be happy to welcome the Young Oncologists who will win the scientific contest of the meeting for a one month observership program by the third-fourth quarter of 2025.

All my best Wishes for this great event !

Sincerely yours,

Prof Karim Fizazi MD, PhD

Dr. Elabrar Ebrahim Elmasry
International School of Clinical Oncology (ISCO)
ebrar.ebrahim@isco-eg.org

Dear Dr. Elmasry:

I am pleased to report that the IAC Steering Committee has approved the application submitted for endorsement by the International School of Clinical Oncology (ISCO) on behalf of the "Personomic Compass," which will be held April 10-11, 2025, in Cairo, Egypt.

No funding has been granted for this meeting. ASCO will provide the ASCO logo and include the event on ASCO event calendars. If ASCO can assist in providing materials for the meeting, such as slides or background materials, we are happy to do so.

We ask that you work with the ASCO Center for Global Impact to coordinate these details. Please note that the ASCO national office must review and approve any materials bearing the ASCO logo prior to printing, and that ASCO cannot provide continuing education credits for the course.

Requirements to be followed by the event organizers for an ASCO Endorsement include the following:

1. Endorsement implies that ASCO has approved in an official capacity the educational program and has participated in its development. For this program, materials will be created by the speakers.
2. All materials bearing the ASCO name must be pre-approved by ASCO in writing.
3. Explicit and clear learning objectives must be developed for the educational program of the event and listed in the program brochure. Major changes to the program or educational activities must be forwarded to the ASCO Center for Global Impact for review and approval.
4. During the planning of the conference, ASCO must be provided with copies of communications to any speakers who have been solicited through ASCO and with promotional materials for the conference. This will assist in the promotion of the conference through ASCO channels. There will be an ASCO-appointed member on the planning committee.

AMERICAN ASSOCIATION of CONTINUING MEDICAL EDUCATION®

the International School of Clinic Oncology Annual Congress 2025 (ISCO 2025)

April 10-11, 2025

Accreditation Statement

This activity has been planned and implemented in accordance with the Association's Accreditation Standards & Policies through joint-sponsorship with the **Int'l. School of Clinic Oncology**.

the **ISCO 2025** organized by **Cavallo D'Oro Events Management, Egypt** is accredited by the **American Association of Continuing Medical Education®** to sponsor continuing medical education for physicians and allied health professionals.

The Organizing Committee of the **ISCO 2025** organized by **Cavallo D'Oro Events Management, Egypt** takes responsibility for the content, quality and scientific integrity of this CME activity.

The Organizing Committee of the **ISCO 2025** organized by **Cavallo D'Oro Events Management, Egypt** presents this activity for educational purposes only.

Participants are expected to utilize their own expertise and judgment while engaged in the practice of medicine.

The content of the presentations is provided solely by presenters who have been selected because of their recognized expertise.

Credit Designation

The Accreditation Review Committee (ARC) of the **American Association of Continuing Medical Education®** designates this medical education activity for a maximum of **32.00** hours in the Category 1 credit of the Association's Designation. Each participant must claim only those credits that he/she actually spent in the activity.

Conflict of Interest Disclosure

It is the policy of the **American Association of Continuing Medical Education®** to ensure balance, independence, objectivity, and scientific rigor in all its sponsored educational programs.

All faculty participating in continuing medical education activities sponsored by the **ISCO 2025** organized by **Cavallo D'Oro Events Management, Egypt** are required to disclose to the program audience any real or apparent conflict of interest related to the content of their presentations.

All faculty are also required to disclose any discussions of unlabeled/unapproved uses of drugs or devices.

Joint-Sponsor: the Int'l. School of Clinic Oncology

Welcome to the **“ISCO” the International School of Clinical Oncology** annual congress, where a diverse community of oncology professionals gathers for an unforgettable experience.

Prepare to immerse yourself in an extraordinary gathering of leading experts, where connections are formed, knowledge is shared, and the latest advancements are unveiled. **This exceptional platform brings together renowned speakers from across the globe, ensuring a mesmeric exchange of valuable experiences**, profound insights, and exceptional expertise.

By participating in ISCO, you will seize the opportunity to enrich your clinical practice through transformative discussions, cutting-edge information, and collaborative engagements with your peers. As you gain inspiration and expand your knowledge, we believe that the outcomes for your patients will be significantly enhanced.

Get ready to embark on a journey of discovery, innovation, and personal growth at the ISCO congress where excellence in oncology meets limitless possibilities. **At the heart of the upcoming ISCO 2025 Oncology Congress lies the transformative concept of Personomics** – a personalized approach to cancer care that embraces individual uniqueness and complexities.

Join us in our interactive sessions and insightful discussions as we navigate through this innovative paradigm shift, guiding healthcare professionals towards tailored treatment strategies and patient-centered care. The Personomic Compass will illuminate new paths in oncology, fostering a deeper understanding of each individual's journey through the lens of precision medicine. Don't miss this opportunity to be a part of shaping the future of cancer care at the ISCO groundbreaking congress
