Dear Prof Emad Barsoum,

Dear Prof El-Nahas,

Dear Prof Arafat,

Dear Prof Yassin,

Many thanks for your proposition to Gustave Roussy to endorse the Scientific program of the 2024 ISCO Annual Congress.

On behalf of Gustave Roussy and as Head of the International Academic Affairs, I am happy to confirm that Gustave Roussy will endorse the Scientific program of the 2024 ISCO Annual Congress.

Gustave Roussy will also be happy to welcome the Young Oncologists who will win the scientific contest of the meeting for a one month observership program by the third-fourth quarter of 2024.

All my best Wishes for this great event !

Sincerely yours.

Dear Dr. Elmasy:

I am pleased to report that the IAC Steering Committee has approved the application submitted for endorsement by the International School of Clinical Oncology (ISCO) on behalf of the "ISCO Champion League," which will be held May 9-11, 2024 in Cairo, Egypt.

No funding has been granted for this meeting. ASCO will provide the ASCO logo and include the event on ASCO event calendars. If ASCO can assist in providing materials for the meeting, such as slides or background materials, we are happy to do so.

We ask that you work with the ASCO Center for Global Impact to coordinate these details. Please note that the ASCO national office must review and approve any materials bearing the ASCO logo prior to printing, and that ASCO cannot provide continuing education credits for the course.

Requirements to be followed by ISCO for an ASCO Endorsement include the following:

1. Endorsement implies that ASCO has approved in an official capacity the educational program, and has participated in its development. For this program, materials will be created by the speakers.
2. All materials bearing the ASCO name must be pre-approved by ASCO in writing.
3. Explicit and clear learning objectives must be developed for the educational program of the event and listed in the program brochure. Major changes to the program or educational activities must be forwarded to the ASCO Center for Global Impact for review and approval.
4. During the planning of the conference, ASCO must be provided with copies of communications to any speakers who have been solicited through ASCO and with promotional materials for the conference. This will assist in the promotion of the conference through ASCO channels. There will be an ASCO-appointed member on the planning committee.
5. Within 45 days after the program, ASCO must be provided a summation of the course and evaluations.
6. Full compliance with the Legal Terms And Conditions Governing an ASCO Endorsement which were agreed to as part of your application and which are attached here to again for your convenience.
7. ASCO adheres to the Council of Medical Specialty Societies (CMSS) [Code for Interactions with Companies](#) governing interactions between nonprofit and for-profit entities.

If you have any questions about the process, please contact Sarah Bachmann, Manager, International Outreach, via e-mail at [Sarah.Bachmann@asco.org](mailto:Sarah.Bachmann@asco.org). We wish you a successful conference and look forward to a successful partnership.

Sincerely,

David Kerr, DSc MD DSc FRCP FRCGP FACP FRCMD FMedEd  
Chair, International Affairs Committee  
American Society of Clinical Oncology

Department of Medicine  
DIVISION OF PALLIATIVE CARE

Département de médecine  
DIVISION DES SOINS PALLIATIFS

Dear Dr. Khalil and the esteemed ISCO committee members,

Thank you for inviting our division to organize a palliative care masterclass at your annual Internal School of Clinical Oncology (ISCO) conference.

On behalf of the division of palliative care at the University of Ottawa, we are happy to confirm our endorsement of the scientific program of the palliative care masterclass at the 2024 ISCO annual conference.

In addition to endorsing the program, we are keen to offer our assistance in various capacities. Our division will be responsible for the masterclass agenda, and its scientific content. Three members from our division will facilitate the presentations, organize an informative exam at the conclusion of the course, and assist in selecting the top performer.

This collaboration presents an exciting opportunity to showcase the latest advancements and best practices in palliative care. We are enthusiastic about the prospect of working together to create a valuable learning experience for all attendees.

Best wishes for a successful event!

Kind regards,

**James Downar, MD, MSc, FRCPC**

Head and Professor, Division of Palliative Care, University of Ottawa

MINORITY HEALTH AND  
HEALTH EQUITY RESEARCH CENTER

April 23, 2024

Dear Dr. Waleed Arafat and the Esteemed ISCO Committee Members:

Thank you for inviting us to organize a cancer prevention session at the International School of Clinical Oncology (ISCO) conference.

On behalf of the Minority Health and Health Equity Research Center (MHERC) and the Mary Heersink Institute for Global Health (MHIGH) at the University of Alabama at Birmingham, we are happy to endorse the scientific program of the prevention session of the 2024 ISCO Annual Conference, and we will contribute in a variety of ways. We will be responsible for the cancer prevention session and its scientific content. Three members of the UAB faculty will contribute to presentations during the session, in addition to Egyptian trainees who are part of our pilot grant funded by MHIGH, *Developing Egyptian Investigators to Explore Colorectal Cancer Prevention Knowledge and Behavior: The Colorectal Cancer Research Education Program (C-CREP)*. The trainees will be presenting the findings from their projects developed through the C-CREP program.

This collaboration presents an exciting opportunity to showcase our collaborative work in Egypt in colorectal cancer prevention and we are looking forward to working with you on this impactful event.

Sincerely,

Mona N. Fouad, M.D., MPH

# Welcome Message

Welcome to ISCO-the International School of Clinical Oncology, where a diverse community of oncology professionals gathers for an unforgettable experience. Prepare to immerse yourself in an extraordinary gathering of leading experts, where connections are formed, knowledge is shared, and the latest advancements are unveiled. This exceptional platform brings together renowned speakers from across the globe, ensuring a mesmerizing exchange of valuable experiences, profound insights, and exceptional expertise. By participating in ISCO, you will seize the opportunity to enrich your clinical practice through transformative discussions, cutting edge information, and collaborative engagements with your peers. As you gain inspiration and expand your knowledge, we believe that the outcomes for your patients will be significantly enhanced. Get ready to embark on a journey of discovery, innovation, and personal growth at ISCO where excellence in oncology meets limitless possibilities.

For this year, our chosen theme, «Shooting Targets,» symbolizes the essence of precision in oncology. Like skilled soccer players, oncologists aim for shooting cancer cells with targeted therapies, sparing healthy tissue and minimizing collateral damage. This theme emphasizes the importance of precision in treatment strategies, where understanding molecular target therapies and their interactions is the key aim for this year ISCO-2024. Through this year's congress, we aim to educate and empower medical professionals with the latest advancements in target therapy, equipping them with the tools to hit cancer where it hurts most.
