Purpose & Format

The purpose of this year's congress still falls under the ISCO mission: The equality in oncology education to our fellow oncologists around the globe.

The format of "Personomics" is still our area of concern this year. It is the holistic approach that gathers all specialties treating cancer under the same roof discussing the new updates in oncology practice.

Clinical oncologists, medical oncologists, radiation oncologists, clinical pharmacists, and palliative care specialists are joining the congress to shed the light on the latest scientific updates in the field of personalized medicine and dig deeper into the comprehensive approach toward the patients' treatment journey.

Topics

- Breast Cancer
- Gastrointestinal Malignancies
- Genitourinary Malignancies
- Gynecologic Cancers
- Haematology
- Head & Neck Cancers
- Lung and Thoracic Cancers
- Precision Medicine
- Sarcomas

About ISCO

Vision

To witness oncologists in the region being hailed for their impactful role in clinical research, practice, unceasing learning and providing continuous education for their fellow colleagues all around the globe, as well as being the best practitioners in cancer management.

Mission

We aim for equality in education so that all oncologists acquire the same level of knowledge, understanding and awareness of the latest updates and advances in oncology. This mission will be achieved through the exposure to the most up-to-date data presented by eminent speakers from all over the globe, and through the following:

- Monthly educational meetings.
- Establishing a research center.
- Continuous medical/ clinical education.
- Exchange clinical programs.
- An Annual Congress to exhibit the school activities and to educate oncologists with the latest updates of clinical trials and progress against cancer fight.

Core Values

- Equality
- Integrity
- Passion
- Care
- Unity
- Identity
